TREE PLANTING $\mathsf{CAMPAIGN} - 2023$

Divironmental Concervations A Call to A ciffon and Fain

the verdant heart of Uganda, the Archdiocese and Caritas elected leaders emphasize the moral imperative to care for the earth. Thus the verdant heart of Ogantia, the internation of the spiritual beacon but imperative to care for the earth. These campaigns seek to inspire a shift towards more campaigns. A custodian of God's creation, entrusted with seek to inspire a shift towards more eco-friendly lifestyles and practices, including if a custodian of clouds creating and protecting the seek to inspire a shift towards more eco-friendly lifestyles and practices, including waste reduction, including waste reduction. sacred duty of thich biodiversity and natural recycling, and conservation of wate reduction, and conservation of water resources. beauty that surrounder of our collective Another significant area of focus is the promotion serve as a constant reminder of sustainable agriculture serve as a constant removemental stewardship. of sustainable agriculture practices among the

The call to environmental conservation is deeply rooted in the Christian ethos. drawing from the Biblical injunction to "till and keep" the Garden of Eden (Genesis 2:15). This divine mandate underscores the need for sustainable interaction with our environment, ensuring that we preserve its bounty for future generations. The Archdiocese of Kampala, under the visionary leadership of its Archbishop and the office of Caritas, has taken significant strides in

initiatives aimed at conserving the environment from all sectors of society. The Archdiocese of and promoting sustainable development. Kampala, in fulfilling its spiritual and moral mandate.

of tree planting across parishes and communities the interconnectedness of all creation and the within the Archdiocese as a response to Laudato Si Papal encyclical. Recognizing trees as vital lungs of the planet, this initiative not only aims In conclusion, the environmental conservation at combating deforestation but also at fostering efforts undertaken by the Archdiocese of Kampala a culture of environmental consciousness are a testament to the power of faith in action. among the faithful. The program encourages to plant and nurture trees, thereby parisi to the reforestation efforts and CONT enh

the Archdiocese has embarked on education campaigns aimed at raising out the adverse impacts of pollution nable practices. Through workshops, d liturgical messages, the clergy

Catholic faithful and the wider community. The Archdiocese of Kampala through the Caritas office supports initiatives that encourage organic farming, soil conservation, and the prudent use of water. By advocating for practices that maintain the health of the soil and ensure food security, the Archdiocese contributes to the wellbeing of its congregants and the preservation of the environment.

The challenge of environmental translating this spiritual directive into actionable conservation is vast and requires a concerted effort calls upon not only its members but all people of One of the cornerstone projects is the promotion goodwill to join in this noble cause. It highlights shared responsibility to protect our common home.

They serve as a beacon of hope and a model for other communities to emulate. By integrating spiritual values with environmental stewardship, the resilience of local ecosystems. the Archdiocese through the Caritas office not only safeguards the integrity of creation but also nurtures a deeper sense of reverence and gratitude for the natural world. As we move forward, let us all be inspired by their example and commit ourselves to the urgent task of caring for our planet, for "the earth is the Lord's, and everything in it" (Psalm 24:1).

Tree Planting Campaign in partnership with CARITAS Kampala

Kampala

The schole school forsk a break from law and participated in tree planting and gathering of rubbish in the school bood the maghbourbood

ach child arrived with a tree of their ouce ready for the exercise

user Turbalse, the head teacher, said hildren need to learn early enough conserve the environment.

Axeale Ssenteza We need to water trees for them to grow. Trees make the environment cautiful

• WEDNESDAY, AUGUST 2, 2023

It is not good to cut down trees because they are mportant to the environment.

The children had an exciting experience
